Hello All,

Welcome to 2021. Hopefully this year will open up opportunities for us all that have been missing due to the virus. Spring is upon us and as I sit looking at Pewaukee Lake I can almost hear the ice melting and the water screaming for boats.

The Events Committee has been working to help fill our summer out. You have already gotten notice through the Portal of some confirmed events and we hope to be bringing more to you as time goes on. The **“Portal”** is an excellent tool for communication to our members so please pay attention to your emails as it is a great tool to get notifications out to the members quickly rather than wait for the newsletter.

Yours truly visited All Hands Boatworks to deliver the donation and found it interesting on what they are doing down there both with wood and fiberglass. Bob Snyder and Bill Freyman are presenting the other donations. They will be identified in the next newsletter. We also welcome Dorothy Boxhorn from Mukwonago to the Glacier Lakes Chapter. Welcome Dorothy! See other new members on page 4 along with member profiles.

We will keep you all informed on upcoming events as I'm sure we are all anxious for Spring and Summer to arrive. Stay safe and healthy.

1910 Brooks Boat

***Build Model Number 226 Length 20 feet Beam 5 feet
 Engine Motorgo 4 HP Serial Number 4033***

**The boat was built in 1910
 by Carl Ibisch who lived in
 Columbus, Wisconsin.**

Brooks Boat Company was in Saginaw, Michigan and built complete and knock down boats. It is not known if the boat was a complete knock down or was built from a local wood – most likely Brooks plans local wood. I have the original plans.

Carl was born October 2nd, 1880 in Hamburg Germany and died January 15th, 1968. The boat then passed to his son Alvin who was born April 28th, 1918 and died December 4, 2011. Jack Rhodes from Beaver Dam bought the boat from Alvin on November 2nd, 2004.

Lee J. Wanie bought the boat from Jack on May 7th, 2019.

The boat spent all its life on the Crawfish River and its boathouse by the river in Columbus, Wisconsin. The last years was in a barn on Jack Rhodes farm near Beaver Dam, Wisconsin. This is where it was when I bought it.

The boat was in good condition – most all the wood is original. Some ribs were replaced. It was completely stripped using 5 gallons of Total Boat Stripper. The stem post on the keel was replaced. The bottom was glassed using 2 gallons of West epoxy. The fuel tank was removed and repaired. The propeller shaft was replaced with stainless steel and the stuffing box was rebuilt. The propeller was rebuilt by Moes Marine.

The Motorgo engine is a 2 cycle, 4 hp with a 4 inch bore and 3 1/2 inch stroke. It was built by Lockwood in Jackson, Michigan and marketed by Sears Roebuck. The ignition is a 12 volt battery with buzz coil. It was completely taken down, new rings installed, new carburetor float and rod bearing adjusted.

There were boats like this where I lived on the Rock River in Horicon, Wisconsin until the early 1950's. My wish came true of owning this boat which runs great and fun to take out on the water.

Dennis and Patricia Griswold

Oconomowoc, WI

When I was a young boy, I lived across the street from Pewaukee Lake at 410 Park Ave. I helped Bill Tenckhoff with his rent-a-boat business. I and all the kids in the neighborhood helped him clean and wash the boats and help the customers get underway. I even helped the big Cris-Craft boats dock when they would stop in for a drink. When I would tie them up, I would vow to myself that someday I would have a woody, so I started going to the boat shows. I already had a few projects completed, among them a steam engine, a 10-foot racing boat, two strip canoes, and two kit airplanes I flew for years.

I found a plan for a woody that I liked from Glen-L Build a Boat, the 20-foot Riviera with a two row forward, one row in back cockpit. The hull is built by cold-molding methods, plywood and thin veneers over close-

ly spaced framing members. It has two 11ounce layers of fiberglass on the sides and and bottom. The deck is covered with five ounce layers of fiberglass. I used aged mahogany I had shipped from Colorado.

I started the boat on Sept. 9, 2012 and finished and launched it on May 31, 2017. The boat is a real performer at top speed of 54mph, and it really gets on plane fast and rides smoothly. So far, it performs perfectly, so I think it is my last big project. That's why I named it "Tis It".

Perry Edwards will Be Missed
Glacier Lakes Chapter Lost an Enthusiastic Fun Loving member
who loved to restore boats.
September 24, 1943-February 15, 2021

Perry's obituary said he was a savvy entrepreneur always in search of new endeavors. Perry passed away Monday, February 15, 2021, after a lung cancer diagnosis just four months before.

The story goes on to say, Perry was a talented builder and inventor spending many of his years operating businesses remodeling homes and crafting and selling various types of furniture to make his living. One of his biggest accomplishments and greatest sources of pride was the opportunity to personally build and customize a new home beginning in 1998 for both himself as well as his loving wife, Jill, of nearly 51 years. He was always well known to be an early-riser and hard worker with a knack for punctuality and a no nonsense attitude who could get things done.

Throughout his full and adventurous life, he enjoyed many hobbies including hunting and fishing, race car driving, real estate investing, traveling and camping in his motor home and his love of restoring classic, antique wooden boats.

Perry had a unique and charismatic personality which was enjoyed by many and will be greatly missed by all.

Perry was always there to volunteer for Glacier Lakes Chapter functions. He was involved with The Pewaukee Boat Show, The January Boat Show at State Fair Park as well as participating at boat shows around the state.

In 2017, Perry and Jill designed and produced special plaques for Gordon Moore, Al Hanley and Pete Extrom for their work with the Minocqua show, raising funds for MS. It was a surprise award and presentation in honor of the 25th anniversary with proceeds going to the MS Society for so many years. All the show captains were 100% behind the idea. Perry was always thinking of others.

Perry is survived by his wife Jill; his daughters Tracy (Dwayne) Robinson of Sarasota, FL and Dana (Bryan) Pelz of Kenosha; his grandson, Christopher Pelz of Kenosha; and many other extended family members and friends.

JUNE 25-26, 2021

LAKE MINOCQUA AT THE BOATHOUSE & REDMAN REALTY MINOCQUA, WI

Event Director-MarcToigo/ marcto@gmail.com 715-892-4873/Facebook:@MinocquaBoatShow

Dear MACBS Participants:

Welcome to the 2021 Minocqua Antique & Classic Boat Show (MACBS) and to the famed Minocqua Chain of Lakes. My name is Marc Toigo and, with the help of my wife Lynn, many sponsors, and volunteers, I am the Event Director of the 2021 MACBS. After a tumultuous 2020, I'm sure everyone is ready for our boat show to be great fun and well attended.

This year we are going to hold the show over two (2) days, Friday and Saturday, June 25 & 26th 2021. This is going to be a busy weekend in the area so be sure to reserve hotel space immediately. In 2021, there is only one weekend between Fathers Day and July 4th and we are having the 2021 MACBS on that Friday and Saturday. We have decided to run the boat show later Saturday evening, until 8PM, and not to have the show on Sunday. Boats can be left at the docks on Friday and Saturday evening but should be removed when possible Sunday to allow The Boathouse patrons to use the dock space on the very busy Sunday.

Lynn and I live on Lake Minocqua, have a 1955 Chris Craft Continental, do a great deal of woodworking and love working on vintage wooden boats. Great news is this winter is that The Boathouse has work planned to fix and rebuild parts of the pier. A big thank you to Bill Fricke, the staff and ownership of The

Boathouse. They are huge sponsors of the event and contribute much of the beverages we sell that ends up supporting our charities.

Our participants and guests share a passion for vintage boats of all types and manufacturers. I am sure you will agree that the reward comes through the smiling faces of our guests as they enjoy each of the boats displayed. We have room for about 40 boats in the water but will expand our on-land exhibits with boats in The Boathouse parking lot and additional displays across the street in the Redman Realty parking lot. On-land participants can take time to put their boats in the water anytime throughout the show.

We appreciate all our sponsors and volunteers. Without their help this would not be possible. Proceeds from 2019 went to Multiple Sclerosis (MS), and the Minocqua-Kawagousaga Lakes Protection Association. Proceeds this year will also be going to benefit several local organizations to be decided upon with help from organizers and sponsors. The Pointe Hotel & Suites is our preferred lodging for this event. In addition to registrations, clothing, and food and beverage sales, we will also have raffles. See you in June 2021. Contact me with any questions and/or comments.

Marc and Lynn Toigo, Event Directors

What's On Your Transom? The Rest of the Story-

Paul Harvey would have loved this story

Lars and Joan Anderson

KNOW FOLLY

By Lars Anderson

The summer of 1976 we visited with a friend on Okauchee Lake whose daughter had just been killed in a boat accident. He had a large fire going and was in the process of burning all his boats. This boat was hanging vertically from his barn rafters with a logging chain clinched around the hull. It was a 1931 17' Dee Wite. I pleaded with him not to burn it, gave him \$100 got a trailer and moved the boat out of his sight.

Subsequently it was parked in a pole building for three years until our son began to remove old varnish. The boat had not been run in many years and needed restoration. That process started and stopped numerous times before I became serious about getting it water worthy. My wife, Joan, tolerated my efforts but said it was Lars' folly and it was referred to by that name among our family and friends. I kindly objected to that with my reply "I know folly and this is no folly". Thus we have a compromised name.

LIFE is SHORT

GO BOATING

Jim Staib

"I was told by the seller that it was 'good to go.' Well, the bilge pump ran every hour all summer. In addition to having a leaky bottom, the engine sounded like a rock grinder."
